Wayne Hamilton & Sharon Pearce

Letter from the President

By: Peter Downey

Hello friends.

As the days slowly get a bit longer our thoughts turn to once again hitting the road in our Studebakers. At least mine do. It is tempting some days with clear roads that have been rain soaked to

sneak one out for a drive, but that involves as you know a lot of work and time to wake them up for an ill-advised trek down the road, so I resist the temptation but just barely.

A good time was had by all in attendance at our annual card party and potluck. The food was tasty and plentiful.

As I am sure you all are aware, Donna Graham passed away on January 7th. 2024. A Celebration of life is being held at Club Roma, St. Catharines in the Starlight Room on March 3rd, 2024, from 1pm-4pm. Donna and George while not founding members of our Chapter have been part of our Club since 1990, and for many years they were mysteriously not to be seen when Santa and his elf arrived at our Christmas Dinner. Donna's infectious smile will be missed by us all, and we extend our deepest sympathy to George.

And just a few days ago we learned of the passing of Joanne Holman, Ted Calder's wife on February 1, 2024. Details of a celebration of Joanne's life will be made available at a later date.

We resume our meetings at the Canadian Warplane Museum for the next 4 months starting on February 25th.

Thanks to all who have contributed articles and pictures to this edition of the Newsletter, we certainly appreciate your contributions.

For those of you thinking of a winter vacation, I hope you will enjoy some time in the sun away from the dreary winter days we have experienced of late. The only good thing about them is that there has not been much snow, and if there was any it went away very quickly. My new snowblower sits proudly polished up in the garage, waiting for use this year which honestly, I hope does not come. If in your travels, you see any Studebakers basking in the sun, please remember to take a photo.

Remember to keep the photos and articles coming, we always appreciate your input.

Stay healthy and safe and Happy Studerbaking

Vice President & Membership Steve Porter

Membership to the SDC is a requirement for membership to our chapter.

Currently, we have 66 paid and honorary members with only one outstanding unpaid membership.

For membership only, it is \$12 in US funds. This is membership only and no magazine.

Applications for both our chapter and the Studebaker Drivers Club can be found at this link for both the SDC and Hamilton Chapter membership.

[Membership Information
\(thehamiltonchaptersdc.ca\)](http://thehamiltonchaptersdc.ca)

Hamilton SDC membership link:
www.thehamiltonchaptersdc.ca

Hamilton Chapter SDC Membership Annual Dues: \$25.00 Jan.-Dec.

Membership in the HAMILTON CHAPTER is open to any person who supports the purpose of the Club and is a member in good standing of the National Studebaker Drivers Club. This membership includes six bi-monthly issues of the Bullet-Tin, the chapter newsletter.

Send completed application and your check payable to

Switching to the Digital Membership

A little background:

When the SDC Board decided to make Turning Wheels available on-line, there were some conditions stipulated:

1. It could not be downloadable and shared. This eliminated the possibility of using a PDF file.
2. It had to be accessible on multiple devices (PC, Mac, tablet, smartphone).
3. Only active SDC members in good standing should have access to the magazines.
4. A new "digital membership" option should be available to those who only want to view the magazine on-line (no physical magazine delivery).

Because of these conditions, I am using a third-party service to present the magazine in a digital format. I have used this service for many years for my other clients. However, this service comes as a cost to the SDC.

This cost is based on the number of publications hosted on their service. Obviously, the more publications hosted, the more expensive it becomes. In fact, it becomes exponentially expensive, not geometrically expensive.

To keep the cost reasonable, it was decided that only 3 years of Turning Wheels magazines would be made available. For those that want digital versions of past magazines, the SDC offers a "Digital Library" available on a flash drive. The flash drive contains Turning Wheels magazines from 1963 - 2023. The magazines are presented in a PDF format on the flash drive. The Digital Library can be purchased for \$99.00 US.

Social media for our chapter is our website, and our Facebook page. Our website is up to date. We do maintain a very active Facebook page. It has lots of visits as monitored each week.

Our website page is located at www.thehamiltonchaptersdc.ca. It does contain pictures of members' cars. If yours is not there, please submit a picture in jpg format and we will display it.

Obituary of Donna Marie Graham

Donna Marie Graham (nee Forrestall) passed away peacefully at her home on January 7th, 2024, with her loving family by her side.

She was born March 22, 1946, in Halifax, Nova Scotia to the late Ella and George Forrestall. Predeceased by brothers Peter and Frank. Moving to Yarmouth, Nova Scotia not long after birth, where she would spend her childhood and adolescent years until she met the love of her life, George Graham. They married and moved to Ontario. Starting in Hamilton, to Grimsby and settling in Beamsville for the last 46 years.

Donna was a homemaker for many years but went into the workforce as a waitress after her kids were grown. It should be mentioned she enjoyed waitressing and talking to people so much she said she didn't even need the tips. She enjoyed baking for family, friends, events,

parties and every reason in between. Donna always dressed to impress and had the dance moves to match. She would also give advice on outfits and accessories to buy and was very serious about having her hair and nails done every six weeks.

As classic car owners, Donna was a member of the Peggy Sue Cruisers and was Membership Secretary for The Hamilton Chapter Studebaker Drivers' Club for over 15 years. She was actively involved with organizing car shows including the Winona Peach Festival. Although, you'd likely find her in the mall shopping with her grandkids while George sat at the cars. Donna also, alongside her dear husband, loved instilling the magic of Christmas in the hearts of everyone they could as they often dressed up as Santa and Mrs. Claus for parties and charity events.

Donna is survived by her husband of 60 years, George, and their three children, Joseph (Leanne), Sherri, and David. Forever remembered by her seven beloved grandchildren, Alexandra, Thomas, Madison, Hannah, Fletcher, Zoe and Xieran, as well as her two great-grandchildren, Isla and Joseph. She is also loved and remembered by nieces, nephews, and wonderful friends. Donna also deeply cherished her dogs, Lucky and the late Suzie.

Donna deeply cared for the people around her and will be forever missed by each and every one.

Cremation has taken place. A Celebration of life is being held at Club Roma, St. Catharines in the Starlight Room on March 3rd 1pm-4pm.

Joanne Gail Holman: October 15, 1947 - February 1, 2024.

Joanne passed away peacefully in the early hours of February 1st after a year and a half battle with Dementia, at the age of 76. Born in Toronto, Ontario, Joanne was a more recent resident of Brantford, Ontario, since 2015.

Joanne leaves behind her loving husband, Edward (Ted) Calder, of 30 plus years and her adoring dog, Niki. Predeceased by her son Paul Barton (1965 - 2018). Beloved Mom of Lisa Barton (Lance) and Stepmom to William (Lori) and Gwentyth (Justin). Proud Grandma to Justin, Daniel (Kelly), and Amanda (Dan). Doting Great Grandma to Benjamin and Holland. Joanne will be sadly missed by her siblings Marlene (Laurie), and Eric (Maryann), as well as nieces, nephews, extended family, friends, and former colleagues.

When Joanne's children were young, Joanne attended school as a mature student, graduated as a registered nurse, and had a fulfilling 25 year career at Joseph Brant Hospital, Burlington, mostly as a Psychiatric Nurse.

Joanne was very talented in many arts and crafts, as well cooking, baking and sewing. Joanne loved to decoratively paint on canvas or wood objects such as tables. She took up stained glass and made gorgeous pieces, of all sizes, to hang in windows or front doors.

She also learned how to make jewellery which she enjoyed doing for several years. Joanne loved to sew on her Janome machine where she made children's clothing and window drapery which she made for the house that she and Ted had designed and built in Caledonia, 2003. In the early 2000's, Joanne had a sign made "Joanne's Creations" and she and Ted would rent a booth at the local fall fairs where her creative crafts could be purchased by patrons. Joanne also loved to crochet from patterns or by freehand and would make beautiful clothes for her great grandchildren, or adorable coats for her dog Niki.

Joanne and Ted were fortunate and enjoyed traveling together, taking 2 week vacations in both the spring and the fall. Joanne and Ted's travels extended worldwide and included trips to Costa Rica, St Lucia, Dominican, Florida and several other U.S. states, Portugal, Italy, Lanzarote, and Spain. Joanne and Ted visited Scotland five times where they enjoyed spending time with Joanne's friend Helen and her family. Joanne loved to shop and she and Ted made many trips to New York state where Joanne would always find great deals which she loved to show to family and friends. And while in NY, Joanne and Ted would often stop in Tonawanda to see Joanne's uncle Carl and aunt Judy. Joanne and Ted also took many trips to visit her Dad who lived in a winterized cottage North of Huntsville. We joined the Hamilton Studebaker Club, we both bought a Studebaker (made in Hamilton) and have many fond memories of events and trips in Canada and the USA with club members.

A note from Ted: I was grateful to have spent the last 32 years with Joanne and am saddened that dementia cut our journey short. As Dolly Parton wrote in a song to her business partner Porter Wagoner in 1973 - "I Will Always Love You". Amen

Details of a celebration of Joanne's life will be made available at a later date.

TECH TIPS

Here's How to Find and Stop Oil Leaks

By Jim & Karen McKeever San Joaquin Valley Chapter, SDC

There's nothing more frustrating than having an oil leak that puts greasy, sticky goo all over your chromed and polished aluminum engine parts (or all over your garage floor!)

If you have ever wondered if there was an easy way to seal oil pan, intake manifold, or valve cover leaks, here is a little tip that will help.

For materials, you will need a tube of silicone sealer (the blue stuff or similar oil resistant type), a piece of vacuum hose large enough to go over your dipstick tube (with dipstick removed) and long enough to reach another car (about 8 feet or so should do), some duct tape, carb cleaner, and a stethoscope or reasonable facsimile.

(If you already have a vacuum pump, or decide to purchase one, you can eliminate the 8 feet of vacuum hose, but you will need an appropriate length to go from the pump to the dipstick tube.)

First, drain the oil from the leaking engine. If you forget this, the vacuum source, (i.e. the other car) will soon have five or so extra quarts of oil.

Second, seal the openings on the engine (PVC valve hole, oil breather, etc.) with the duct tape. You might want to start by degreasing the engine first.

Third, remove the dipstick, hook the vacuum hose to the dipstick tube on the leaking engine, and run the other end to the manifold vacuum on the other car (not ported).

Start the engine on the vacuum source car and run it just above idle. Take the stethoscope and listen to all the likely places it could be leaking on the oil pan, intake manifold, and valve covers.

Where there is a leak, you will hear a rush of air (HISS-S-S) being drawn into the engine. If you don't have a stethoscope, you can take carb or brake cleaner and spray it around the gasket areas, then watch and listen for it to be sucked in.

Once you find the leak, take your carb cleaner and spray the area liberally to get rid of the excess oil. Then take the tube of silicone sealer and apply it wherever the engine is hissing. The vacuum will pull the sealer into the opening, sealing the leak. Allow the sealer to completely dry, then trim off any excess, so everything looks nice and neat.

Don't forget to put oil back into your formerly leaking engine before you fire it up, or you may have to clean broken parts off the garage floor that weren't there before!

This little trick also works on new and/or rebuilt engines while on an engine stand, to make sure they don't leak before they go into your car.

Malcolm Berry April 23, 1940 to Feb. 2, 2024

Longtime Studebaker Drivers Club member and Tri-State member, Malcolm passed away after a short illness. Many of you will remember him as a fixture at many speed events and would recognize his white Studebaker wagon. He loved speed and would willingly help anyone who asked.

Hamilton Meeting, Games & Potluck January 21st.

It was held at the Livingston Activities Centre in Grimsby. The day included a short meeting followed by games, cards and Tarot card readings by Sandy Cruz. It was a great day and lots of fun. The day was capped by a phenomenal potluck dinner. As you can see, we didn't go hungry. Thanks to all who helped with the setup, photos and takedown this year.

NOTE: we are scheduled for January 19, 2025 Mark the date.

FROM THE DESK OF MIKE JONES

It was a pleasure attending the Christmas Party at Charleston's on December 9th. Everyone was very personable and made us feel welcome. I understand the auction was a success. Hopefully during the New Year you will see more of us.

Charleston's is one of our favorite restaurants. Part of the chain of 85 restaurants owned by Hal Smith and located in seven states. There is only one Hal Smith restaurant in Texas and its Charleston's in Fort Worth.

I am hoping for a very mild winter. I have several projects I was unable to get completed before cooler weather sets in. A heated garage would be nice but will probably never happen.

I am also a caretaker here in Fort Worth of a private car collection numbering in excess of seventy cars. The majority of the cars are Porsches, BMW's, Rolls Royce's, Jaguar's and a few other makes. Included in the collection are six exquisite and rare Packard's from the 1930's.

In another collection I was also a caretaker of, was part of a frame-off Packard restoration and another that was frame-on. Impressive cars; I would like to own one someday. If you are planning a visit to Fort Worth I would be more than happy to show everything off.

It's a new year and everyone is entitled to a free ad consisting of twenty five words or less, or a credit towards more in 'Turning Wheels'. I am always looking for contributions for the Where Has Your Studebaker Been Feature. Anyone had their Studebaker photographed with the blue whale of Route 66?

Wishing the very best to all of you in the coming year. If I can be of any assistance please don't hesitate to contact me.

.....*Mike*

The January 2024 issue of *Turning Wheels*, arrived in my mail box as I was finishing this issue of *The Stude Flyer*. Another great issue, with interesting "Off The Records" article, WWII ad from *Life* magazine of Nov., 1944 and more on the 1913 Studebakers. — Editor dqs

REMOTE BATTERY DISCONNECT SWITCH

Why you need this!

My Studebaker has only one locking door and it's on the wrong side of the car. It's kind of a pain to have to lock my door, slide across the seat and get out on the passenger side and then lock that door.

Recently, while researching my options for a solution, I discovered a remote battery disconnect switch that comes with two small remotes. The operation is simple: push the "off button" and the battery is electrically disconnected from the car. Push the "on button" and the battery is re-connected to the car.

The switch I picked is available on Amazon for \$22.98. Click here to see it: <https://tinyurl.com/Remote-Battery-Disconnect>. It includes the pieces needed to fit batteries with the fat top posts or the small front posts.

Installation on the negative battery post was really straight forward with simple hand tools. Connecting the red wire to the positive battery post completed the job; all in less than 15 minutes start to finish. Now I can disconnect the battery with a simple push button and the car cannot be started without the remote.

Isolating the battery and denying anyone the ability to start the engine will give you confidence that whatever vehicle you've installed this switch on will still be right where you left it when you come out of the store.

Wayne Lee
North Georgia Chapter

Studebaker and the Electric Automobile

Studebaker was the world's largest vehicle manufacturer in the 19th century, building the Conestoga wagons that enabled Western migration. Once automobiles arrived, the company reluctantly fielded electric vehicles. While company patriarch John M. Studebaker preferred them, most motorists did not. Studebaker dropped electrics from its lineup for 1913 after building approximately 1,800.

The Studebaker Electric was an automobile produced by the Studebaker Brothers Manufacturing Company of South Bend, Indiana, a forerunner of the Studebaker Corporation. The battery-powered cars were sold from 1902 to 1912.

Studebaker entered into the automobile manufacturing field in 1898 when Frederick S. Fish, as chairman of the executive committee, persuaded the board to supply \$4,000 for the development of an electric vehicle. However, lacking the board's full support, the project yielded one car. The company did, however, enter into the field of producing bodies for electric taxis through Alexander Pope's [Electric Vehicle Company](#).

Studebaker formally began production in earnest in 1902, and the company chose battery-powered electric vehicles because they were clean, easily recharged, and worked well in urban centers without need of refueling depots.

Studebaker Electrics were available in a variety of body styles, many of which mimicked the bodies that it had long produced for its lucrative passenger carriage line. These included the Stanhope, Victoria, and Surrey. A four-passenger model was introduced in 1904.

Fish realized early on that Studebaker's future did not rest in the limited electric car, but in the gasoline-powered automobile. Studebaker's field of expertise was in body building and product distribution, not engine building. This realization led to the creation of the Studebaker-Garford automobile in 1904. The joint agreement worked well until 1909-1910 when Garford attempted to divert chassis to its own brand of automobile, and Studebaker, looking for an affordable car to sell entered into an agreement with the E-M-F Company of Detroit. E-M-F would build the entire car, which would then be distributed through Studebaker wagon dealers.

Still, Studebaker continued to build electric vehicles until Fish decided to begin the process of seizing control of E-M-F in 1909, which Studebaker completed by 1910.

By 1912, it became conventional wisdom that the future lay in gasoline-powered engines rather than heavy, sluggish electrics, and the limited production of electric cars stopped. An official announcement from the newly re-incorporated Studebaker Corporation stated:

The production of electric automobiles at South Bend has ended. It has been conducted for nine years without much success, and ultimately the superiority of the gasoline car was apparent.

THANK YOU

December 8, 2023

Ms. Susan Lusted
Studebaker Drivers Club - Hamilton

Dear Ms. Lusted and Members of the Hamilton Chapter of the Studebaker Drivers Club:

This donation means so much to our neighbours experiencing hunger this season and with more households relying on food banks than ever before, this couldn't have come at a better time.

This can be a difficult time of year for those already worrying about how they will keep food on their table, let alone celebrate the holidays. Your support means our food banks will be prepared to feed every family that is in need, so thank you for caring.

This gift will give peace of mind to parents, security to seniors, and comfort to children. Everyone deserves that at this time of year.

The \$350.00 collected at your Christmas party will raise \$1,750.00 worth of nutritious food for our member agencies supporting over 12,000 households in the month of December.

Thank you for providing our families, children, and seniors with hope.

May your holidays be filled with love and cheer.

Sincerely,

Radhika Subramanyan
Chief Executive Officer

ANNOUNCING THE 60TH ANNUAL STUDEBAKER DRIVERS CLUB INTERNATIONAL MEET

Dubuque County Fairgrounds, Dubuque Iowa
June 25-29, 2024

Join us to celebrate our Diamond Jubilee, the SDC's 60th Studebaker Drivers Club International Meet! All activities are at the Dubuque County Fairgrounds in newly remodeled, climate-controlled buildings or under the many shaded areas.

Iowa's hospitality guarantees you can gather with friends for an enjoyable visit to where Iowa started. We think you should come early and enjoy an extra day where limestone bluffs meet the Mississippi River. You can ride the world's shortest, steepest railway and enjoy stunning views from the top. Dubuque is where you'll discover two Smithsonian-affiliated museums and over 50 murals that have earned national acclaim. Dubuque, Iowa, is where you will visit but want to stay.

**Vehicles
judged or
displayed.**

**One-of-a-kind
live concert,
and evening
entertainment**

**Food stands open
breakfast to
close, delivering
